

Place-Based Inquiry: An Experiential Learning Workshop at Cheakamus Centre

Join Capilano University faculty and Cheakamus Centre staff for a full-day of place-based, experiential learning at Cheakamus Centre in Brackendale. Using the Centre's 165 ha ecological reserve, participants will spend the day immersed in place and inquiry as we explore cross-disciplinary connections, experience and reflect on a range of approaches and promising practices to place-based learning. A delicious and sustainably-sourced lunch will be provided in the [Blueshore Financial Environmental Learning Centre](#).

Workshop Goals

- Explore and experience a range of different approaches to place-based learning
- Deepen understanding of place-based approaches within a post-secondary context
- Share successes and extend personal professional practice of place-based inquiry
- Identify opportunities for developing place-based learning networks
