

Capilano University

# Teaching & Learning Symposium 2026

## Imagining Community: Learning, Belonging, Becoming

We are being challenged in a multitude of ways. Together, we navigate these layers of change.

This year's theme invites us to sit together to focus on our students, one another, and ourselves. It invites us to reflect on our own classroom experiences and explore ways in which we facilitate learning, practice belonging, and dream of becoming.

Dr. Karen Gravett  
Online Keynote - April 29
